

COMP 7036 – Applied Research Methods in Software Development

Instructor: Borna Nouredin

Assignment 1

Total marks: 100

Select an article and write a review. The article should be published and preferably peer-reviewed. It can be a journal paper, a conference paper or an article from a professional magazine article.

- What is the type of research the article is describing?
- What is the main research question or problem being addressed?
- What is the methodology carried out? What is the data being collected, how is it being collected, and how is it being analyzed?
- Comment on the value and merit of the research as a whole. Why is it important?
- What are the results?
- What are the conclusions?
- Are the claims justified from the data?
- How can future research build on the findings? What new questions does the research open?

Be sure to provide either a copy of the paper, or a full citation. Assignments must be word-processed and submitted before the dropbox is closed. You may submit your assignments in either Word or PDF formats (PDF preferred).

Assignments must be submitted using the filename A00<ID>_Asst3.<EXT>, where <ID> is your student number and <EXT> is the file extension (e.g., .doc, .docx, .pdf). Late assignments will not be accepted.
